### EXAMINER'S COMMENTS

1. Prosecution had previously been suspended to investigate potential interference. After further consideration the Examiner has determined that an interference does not appear to exist. As such, prosecution is **resumed**.
2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 3/12/2001 has been entered.
3. Applicants' Information Disclosure Statements, filed 3/12/2001 and 1/10/2005, are acknowledged and have been reviewed. References 13-15 of the IDS filed 1/10/2005 were incorrectly designated as PCT documents. The country code for these references have been changed to EP. Further, reference 13 has been review only to the extent of the provided English language translation of the abstract, and references 14 and 15 have been reviewed only to the extent of the provided English language translation of the titles.

### *Drawings*

4. The drawings filed on 3/07/2001 are acceptable subject to correction of the informalities indicated as follows: the compounds labeled 2 and 3 are missing "N"

(nitrogen) in the structures. **In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.**

### REASONS FOR ALLOWANCE

5. The following is an Examiner's statement of reasons for allowance:

The invention is directed to admixtures of target molecules and nucleic acid mimics, in the form of PNA polymers containing at least one sterically bulky substituent on at least one base in said polymer. The prior art of record neither teaches nor suggests such sterically bulky substituents attached to the bases therein. It is additionally noted that the independent claim 26, renumbered as claim 1, requires that the subject matter be an admixture with target molecules. It is understood that all dependent claims also require the admixture limitation therein due to their dependence directly or indirectly from claim 26, now renumbered as claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to GREGG POLANSKY whose telephone number is (571)272-9070. The examiner can normally be reached on Mon-Thur 9:30 A.M. - 7:00 P.M. EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ardin H. Marschel can be reached on (571) 272-0718. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
